

## Highlights

### Share Mobile Broadband

Share an HSPA+ connection with multiple Wi-Fi devices such as smartphones, tablets, PCs, game systems, and more

### Stay Safe

A built-in firewall keeps prevents attacks from the Internet, and industry-standard WPA/WPA2 security prevents unauthorized access to your network

### Go Anywhere

Small enough to fit in your pocket, and the high-capacity rechargeable battery lets you work for longer on the go

## DWR-730

# HSPA+ Mobile Router

## Features

### Connectivity

- USIM card slot for connection to mobile Internet services
- 802.11b/g certified, and compatible with 802.11n devices
- microSD card slot allows you to add storage
- USB 2.0 port for easy charging

### Portability

- Up to six hours of battery life in one charge gives you true mobile connectivity
- Small size lets you drop it in a purse or pocket and take it wherever you go
- Supports Wi-Fi off-loading technology, giving you a seamless connection

### Security

- WPA/WPA2 Wi-Fi security protocols provide the latest in wireless security
- Built-in firewall keeps unwanted connections out
- Wi-Fi Protected Setup (WPS) for one-touch secure setup with other devices

### Compatibility

- Works with a range of OS platforms including MacOS, Windows, and Linux

D-Link's DWR-730 HSPA+ Mobile Router uses your HSPA+ Internet connection to give you a simple and fast Wi-Fi network anywhere you need one. Instead of being confined to one Internet-connected device through a USB dongle, the DWR-730 allows you to create and share Wi-Fi hotspots anywhere you have a 3G signal. The convenient size means you can take it with you and share your connection anywhere; use it in a cafe to send e-mails while your friend reads the news, or have your laptop, phone, and tablet all connected to the Internet at the same time using just one mobile Internet service.

## Connect and Share Anywhere

Simply insert your data-enabled USIM card, and this handy device lets you share your connection with ease. The DWR-730 allows you to share not just an Internet connection but also all your favorite files from a microSD card, and other network devices. Show vacation pictures to your family while uploading them to your favorite social media, or distribute notes to your team before the big meeting. The HSPA+ Mobile Router lets you connect with others and share what's important to you while you're on the go.

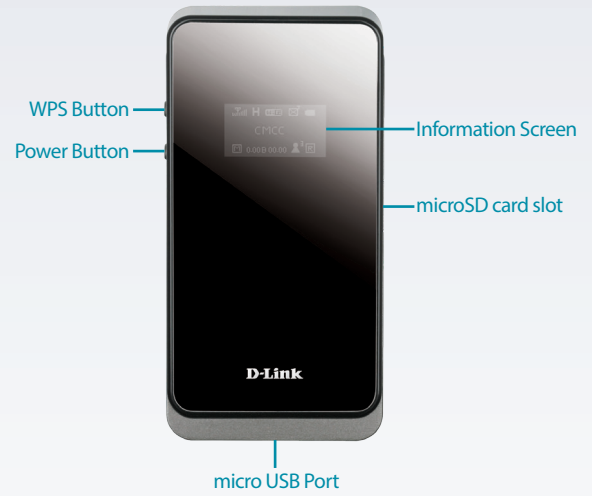

## Security Features to Keep Your Network Safe

The DWR-730 HSPA+ Mobile Router is easy-to-use and includes a host of security features. The built-in firewall keeps connected computers and other devices safe from Internet intrusions, while WPA security encryption prevents unauthorized users from connecting to your network. Wi-Fi Protected Setup (WPS) helps you to create a secure wireless network, and add new devices with just the touch of a button, getting you securely connected in no time.

### Total Portability

The DWR-730's small size means you can easily slip it into your pocket or bag and take it with you wherever you go. For when you are on the road, the rechargeable 2380 mAh Li-on battery allows you to stay connected for longer between charges, and Universal Plug and Play (UPnP) means there's no complicated software to install. Getting online with the DWR-730 HSPA+ Mobile Router is quick, easy, and convenient.
